California State Polytechnic University, Pomona

M.S., Business Analytics

2024 - 2026

Pomona, CA

University of California, Riverside

B.S., Business Administration, Information Systems

2019 - 2023

Riverside, CA

EXPERIENCE

Imperial Health Plan

Apr 2026 - Present

Junior Data Analyst (Provider Data Management)

- Design and implement Power Automate workflows processing 30,000+ provider records, reducing a multi-person manual process from approximately 3–4 weeks to 2 weeks while standardizing recurring data operations.
- Execute recurring SQL reports to identify provider records requiring updates, map and enrich report outputs in Excel using XLOOKUP, and process validated changes.
- Perform data quality audits, integrity checks, and record maintenance across provider databases to ensure accuracy, completeness, and adherence to established business rules.
- Partner with Provider Operations, Claims, and cross-functional teams to investigate discrepancies, resolve provider data issues, and document repeatable workflows and reporting procedures.

Riverside County Office of Education

Jan 2026 - Apr 2026

Assessment & Accountability Analytics Intern

- Developed Tableau dashboards covering student growth, A–G completion, reading assessments, and CalKIDS participation, enabling school, district, and subgroup-level comparisons across 23 school districts.
- Performed exploratory and statistical analysis in R while validating 450,000+ student records to identify trends, missing values, duplicates, and reporting inconsistencies prior to accountability reporting.
- Delivered ad hoc analyses and presented findings to stakeholders, incorporating feedback into dashboard revisions and evolving reporting requirements.
- Prepare analytical reports and executive-facing materials by translating complex education datasets into clear findings and actionable reporting for leadership.

CalOptima Health

Sep 2025 - Mar 2026

Human Resources Training Analytics Intern

- Built Power BI dashboards analyzing 94 trainings, 2,953 registrations, and 787 employees to track participation, completion rates, departmental coverage, course trends, and program performance.
- Analyzed training-needs and education-reimbursement survey data, including feedback from 61 leaders and participants, and translated quantitative and open-ended responses into recommendations for program access, career development, and process improvement.
- Automated recurring Excel reporting with Power Query and documented transformation logic, validation steps, and reporting procedures to improve consistency and support reuse.
- Partner with stakeholders to translate reporting needs and business requirements into dashboard metrics, visualizations, and recurring workforce reporting solutions.

Inland Empire Health Plan

Oct 2024 - Apr 2025

Provider Data Operations Intern

- Audited, updated, and reconciled 1,000+ provider records using Microsoft Access and Excel, verifying completeness and adherence to established provider network procedures and data standards.
- Processed provider demographic and participation updates, researched record discrepancies, and documented corrections in accordance with departmental policies.
- Prepared standardized Excel reports summarizing provider participation and operational metrics for internal teams.

SKILLS

- **Tools:** SQL, Excel (PivotTables, XLOOKUP, Power Query, Advanced Formulas), Power BI, Tableau, Power Automate, Python, Canva, Powerpoint
- **Reporting & Analytics:** Operational Reporting, Dashboard Development, Ad Hoc Reporting, KPI Reporting, Data Validation, Data Reconciliation, Data Quality, Statistical Analysis
- **Business & Process:** Workflow Automation, Process Improvement, Requirements Analysis, Process Documentation, Workflow Analysis, Stakeholder Collaboration, Cross-functional Collaboration
